

# Cody Murray

Spencer, TN • (765)318-0122 • [codakmurraki@gmail.com](mailto:codakmurraki@gmail.com) • [linkedin.com/in/cody-w-murray/](https://www.linkedin.com/in/cody-w-murray/) • [github.com/CodyMurr](https://github.com/CodyMurr) • [www.murrmancodeester.com](http://www.murrmancodeester.com)

Ambitious full-stack developer with strong foundational knowledge of web development languages and frameworks. Eager to combine past experience working in team environments with new skills to make a meaningful contribution to an organization and future projects.

## SKILLS

**Skills:** HTML/CSS, Markdown, Javascript, JQuery, Mongoose/MongoDB, NodeJS, Express, React, Python3, Django, PostgreSQL, Git/Github, CLI/Shell-Script, NPM, Heroku

## PROJECTS

**Cors** — *Python3/Django/PostgreSQL*

Full-stack, e-commerce web application built in collaboration with three fellow software engineers. [cors-sei.herokuapp.com/](https://cors-sei.herokuapp.com/) | [github.com/CodyMurr/cors-project](https://github.com/CodyMurr/cors-project)

**Six-String Theory** — *React/HTML5/CSS3/Webpack/Netlify*

Front-end app utilizing client-side routing and dynamic component rendering to provide a simple guitar-theory reference to novice guitarists.

[Scalenotetheory.netlify.app](https://scalenotetheory.netlify.app) | [github.com/CodyMurr/guitar-theory](https://github.com/CodyMurr/guitar-theory)

**Password Generator** — *React/HTML5/CSS3/Webpack/Netlify*

Single-page React application consisting of customizable user input that results in a randomly generated series of characters.

[Secure-generator.netlify.app](https://secure-generator.netlify.app) | [github.com/CodyMurr/random-password-generator](https://github.com/CodyMurr/random-password-generator)

## EDUCATION

**General Assembly, Remote Software Engineering Fellowship** Dec 2021 - Mar 2022

**Relevant coursework:** MVC Architecture, Asynchronous Programming, HTTP communications and RESTful routing (Client & Server), Relational and Non-Relational Databases, API Architecture, Web Frameworks (Front-End & Back-End), Token-Based Authentication, Core CS concepts

## PROFESSIONAL EXPERIENCE

**Rock Solid Concrete Inc,** Cookeville, TN — *Concrete Finisher* July 2021 - Present

Aided in excavation, preparation and completion of a multitude of commercial and residential concrete projects. Demonstrated ability to adapt to changing work environments and collaborate with crew members to see projects to completion with minimal discrepancies.

**Smith Construction Group,** Dayton, OH — *Concrete Foreman* November 2014 - February 2021

Oversaw the layout, excavation, and placement of 20+ commercial fueling station foundations while maintaining a clear line of communication with project managers, superintendents, and sub-contractors.

**U.S. Navy,** FPO/AP — *Aviation Ordnanceman* September 2011 - 2014

Performed maintenance on ship's manned weapon systems and ammo magazines and logged all equipment/weapons signed out by qualified personnel. Worked in diverse team environments to execute complex tasks while demonstrating a competent level of judgment.
