Spencer, TN • (931) 256-0881 • codakmurraki@gmail.com • linkedin.com/in/cody-w-murray/ • github.com/CodyMurr •
murrmanthecodester.com

Ambitious full-stack developer with strong foundational knowledge of web development languages and frameworks. Eager to combine past experience working in team environments with new skills to make a meaningful contribution to an organization and future projects.

PROJECTS

Cors — *Python3/Django/PostgreSQL/Heroku*

Full-stack, e-commerce web application built in collaboration with three fellow software engineers.

cors-sei.herokuapp.com/ | Source Code

Six-String Theory — *React/HTML5/CSS3/Webpack/Netlify*

Front-end app utilizing client-side routing and dynamic component rendering to provide a simple guitar-theory reference to novice guitarists.

sixstringtheory.netlify.app | Source Code

Password Generator — *React/HTML5/CSS3/Webpack/Netlify*

Single-page React application consisting of cuScalenotetheory.netlify.appstomizable user input that results in a randomly generated series of characters.

randomgenerate.netlify.app | Source Code

EDUCATION

General Assembly, Remote **Software Engineering Fellowship** Dec 2021 - Mar 2022

Relevant coursework: MVC Architecture, Asynchronous Programming, HTTP communications and RESTful routing (Client & Server), Relational and Non-Relational Databases, API Architecture, Web Frameworks (Front-End & Back-End), Token-Based Authentication, Core CS concepts

PROFESSIONAL EXPERIENCE

Rock Solid Concrete Inc, Cookeville**,** TN — *Concrete Finisher* July 2021 - Present

      Aided in excavation, preparation and completion of a multitude of commercial and residential concrete projects. Demonstrated ability to adapt to changing work environments and collaborate with crew members to see projects to completion with minimal discrepancies.

Smith Construction Group, Dayton**,** OH — *Concrete Foreman* November 2014 - February 2021

      Oversaw the layout, excavation, and placement of 20+ commercial fueling station foundations while maintaining a clear line of communication with project managers, superintendents, and sub-contractors.

U.S. Navy, FPO/AP — *Aviation Ordnanceman* September 2011 - 2014

      Performed maintenance on ship's manned weapon systems and ammo magazines and logged all equipment/weapons signed out by qualified personnel. Worked in diverse team environments to execute complex tasks while demonstrating a competent level of judgment.

SKILLS
